

Instruction for making Kabuto B :Created by Michiyo Kigawa

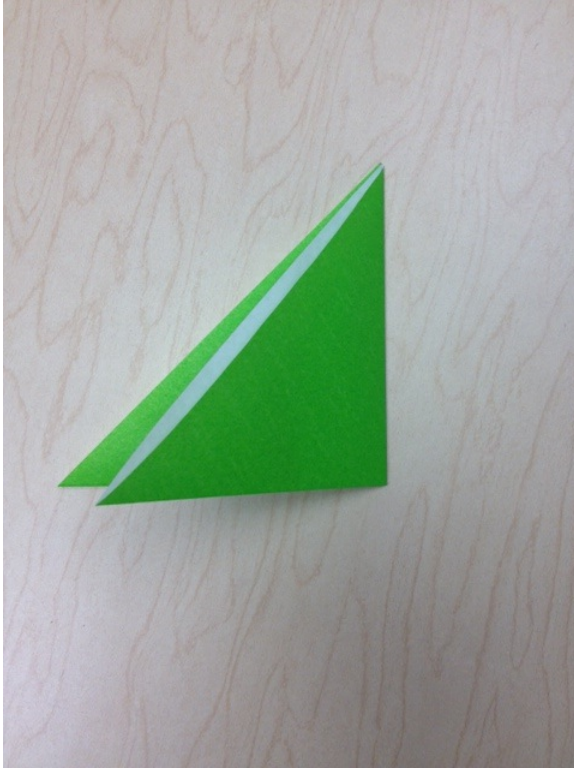

1) Position your square piece of paper in the shape of a diamond. Make sure that the colored side is down.

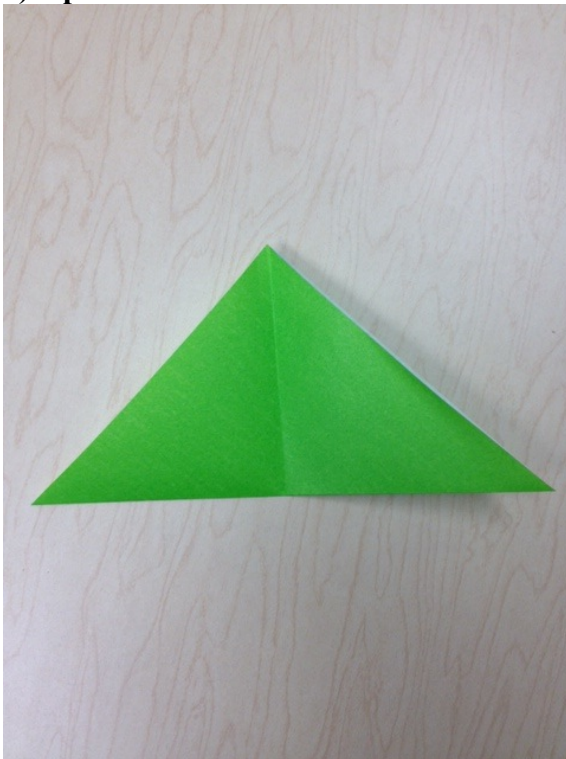

2) Fold it in half.

3) Fold the right corner to the left corner to mark a center point on the bottom side.

4) Open it.

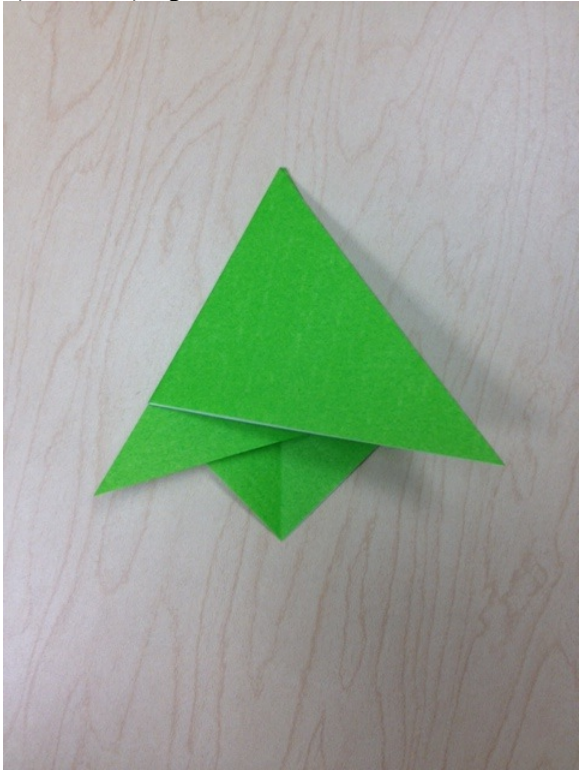

5) Fold the left corner toward right side little off from the top as shown below.

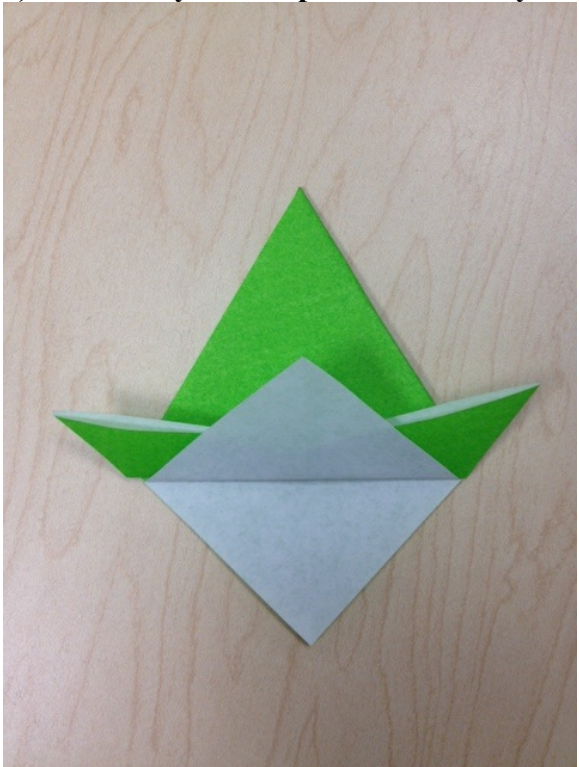

6) Fold the right corner to the left side a little off from the top to make a flower like figure as shown below. (The bottom corner is 60° , one third of bottom side you see in 4) , 180°)

7) Turn 6) up side down.

8) Fold all layers except the bottom layer up as shown below.

9) Fold the remaining bottom flap to the back
